PRIYANSHI SAKARIYA

Full Stack Developer

Ahmedabad, Gujarat | +91 9773188083 | priyanshisakariya89@gmail.com | LinkedIn | GitHub

SUMMARY

Motivated MCA student with practical knowledge of MERN Stack technologies — MongoDB, Express.js, React.js, and Node.js. Experienced in developing web applications, creating REST APIs, managing databases, and designing user-friendly interfaces. Also have knowledge of Python and a strong willingness to learn new technologies and contribute to a professional development team.

EDUCATION

Master Of Computer Application(MCA) 2025-2027, Ahmadabad
Sardar Vallabhbhai Global University
SEM 1-CGPA : 8.5 | SEM 2-CGPA : 8.8

Bachelor of Computer Application(BCA) 2022-2025, Rajkot
SMT K.S.N Kansagra Mahila College
CGPA : 7.6

SKILLS

Programming: JavaScript, Node.js, Express.js, Python
Frontend: React.js, HTML5, CSS3, Axios
Database: MongoDB, MySQL, PostgreSQL
Authentication: JWT, Role-Based Access Control (RBAC)
Development Tools: Git, GitHub, Postman, VS Code
DevOps & Cloud: Docker, Jenkins, CI/CD, Linux, AWS (EC2, S3, CloudFront), Terraform
Core Concepts: OOP, Data Structures, DBMS, MVC, Exception Handling, SDLC

CERTIFICATION

• Python Programming | freeCodeCamp | Certificate
• Spring Boot Course | Scaler Topics | Certificate
• Data Structures & Algorithms | ScholarHat | Certificate
• React.js | Cursa | Certificate
• OOPs in java | simplilearn| skillup | Certificate

PROJECTS

Smart Timetable Optimizer | MERN Stack |React.js| Node.js | MongoDB | REST API |(Link)

- Developed a web-based Smart Timetable Optimizer to automate and simplify college timetable generation and management.
- Implemented separate dashboards for Admin, Faculty, and Students with role-based access and functionality.
- Developed timetable generation based on department, semester, division, faculty, subjects, rooms, and available time slots.
- Added admin management features for departments, classes, faculty, rooms, and time slots.
- Implemented faculty availability and timetable viewing features for efficient academic scheduling.
- Designed a responsive and user-friendly college portal-style interface using React.js.

Campus Project | React.js, Spring Boot, JWT, REST API, PostgreSQL | (Link)

- Developed a full-stack Student Project Management System supporting 3 user roles (Student, Faculty, and Admin), streamlining the academic project lifecycle using JWT Authentication and Role-Based Access Control (RBAC).
- Built 3 dedicated dashboards supporting proposal submission, mentor assignment, project approval, weekly progress tracking, and final project submission.
- Implemented secure file uploads for 3 file types (PDF proposals, PDF reports, and ZIP source code), along with faculty review, comments, and approval/rejection workflows.
- Designed and integrated 10+ RESTful API endpoints using Spring Boot and PostgreSQL, with React.js and Axios for frontend integration.
