PRIYANSHI SAKARIYA

Ahmedabad, Gujarat | +91 9773188083 | priyanshisakariya89@gmail.com | LinkedIn | GitHub

SUMMARY

MCA student with practical experience building secure, role-based web applications using Java, Spring Boot, React.js, and MySQL. Developed production-style systems featuring JWT authentication, RBAC, and REST APIs across 3+ user roles. Actively expanding cloud and DevOps expertise with AWS, Docker, Terraform, and Jenkins, backed by strong fundamentals in OOP, Data Structures, and DBMS.

EDUCATION

Master Of Computer Application(MCA) 2025-2027, Ahmadabad
Sardar Vallabhbhai Global University
SEM 1-CGPA : 8.5 | SEM 2-CGPA : 8.8

Bachelor of Computer Application(BCA) 2022-2025, Rajkot
SMT K.S.N Kansagra Mahila College
CGPA : 7.6

SKILLS

Programming: Java, Python, JavaScript, Node.JS
Frameworks: React.js, Spring Boot
Web: HTML, CSS, REST APIs
Database: MySQL
DevOps & Cloud: Git, GitHub, Docker, Terraform, Jenkins, CI/CD, Linux, AWS (EC2, S3, CloudFront)
Development & Build Tools: Git, GitHub, Maven, Postman, Spring Tool Suite (STS), Visual Studio Code
Core Concepts: OOP, Data Structures, DBMS

CERTIFICATION

- Developing Secure Software | The Linux Foundation | Certificate
- Data Structures & Algorithms | ScholarHat | Certificate
- Python Programming | freeCodeCamp | Certificate
- React.js | Cursa | Certificate
- AWS CloudFront | Coursera | Certificate
- Introduction to Generative AI | Google Cloud | Certificate

PROJECTS

Campus Project|React.js|Spring Boot|JWT|Role-Based Access Control(RBAC)|REST API | MySQL (Link)

- Developed a full-stack Student Project Management System **serving 3 user roles (Student, Faculty, Admin)**, streamlining the academic project lifecycle using JWT Authentication and Role-Based Access Control (RBAC).
- Built **3 dedicated dashboards** supporting proposal submission, mentor assignment, project approval, weekly progress tracking, and final project submission.
- Implemented secure file uploads for **3 file types** (PDF proposals, PDF reports, ZIP source code), along with faculty review, comments, and approval/rejection workflow.
- Designed and integrated **10+ RESTful API endpoints** with Spring Boot, React.js (Axios), and MySQL for authentication, user management, project workflows, and reporting.

Employee Management System | Java, Spring Boot, Spring Data JPA, MySQL, REST API, Maven(Link)

- Developed a backend Employee Management System using Java, Spring Boot, Spring Data JPA, Hibernate, and MySQL following the MVC architecture.
- Designed and implemented **5+ RESTful APIs endpoints** for employee CRUD operations, including add, update, delete, retrieve, and search functionalities.
- Integrated Spring Data JPA and Hibernate for database operations and implemented validation, exception handling, pagination, and sorting for efficient data management.
- Tested APIs using Postman and managed project dependencies with Maven, following clean code and layered architecture principles.
